

[REDACTED]

My beloved wife and children, who are precious to my heart and soul.

My dear, I miss you a lot, a lot a lot. And I pray to God that he will protect you and make you successful in all your situation of your life. And my prayer is that God will unite us together soon.

Rest assured. I am fine when you are fine. My kisses to all of you.

Send my greetings to [REDACTED], [REDACTED], and [REDACTED] and inform them and the UN that I started today on the 7 of August 2024 partial strike. And I refuse to take treatment from the person who is responsible for healthcare in the prison. And I requested from him to tell the management in the prison that I am doing so.

I am going to increase my strike in stages until it will be total during the coming weeks. And the reason of my strike that they arrested me without any legal justification. Or that they convicted me for any violation of the law. And they did not set me free during my remand imprisonment which was ended 8 months ago.

The important thing I am waiting for your visit on Thursday the [REDACTED] of August. And you can come earlier for an exceptional case. But if your circumstances are difficult you can come on a basic visit and bring food

At last all love and respect to all of you.

I love you all, Daddy
